

Dear Friend,

Anyone that's watched the news in the past few days knows that health insurance reform is a hot topic — and that rumors and scare tactics have only increased as more people engage with the issue. Given a lot of the outrageous claims floating around, it's time to make sure everyone knows the facts about the security and stability you get with rationed health care insurance reform.

That's why we've launched a new online resource - [www.BarackObamaWhiteHouse.us](http://www.BarackObamaWhiteHouse.us) - to help you separate fact from fiction and share the truth about government run rationed health care.

Your President, The Obama has decided to use his training as radical Communist/Race Bating Community Organizer to set loose his surrogates in Congress to do his dirty work in Washington. And being an Organizer of the Masses, he has elicited support of his left wing Service Employees International Union and ACORN thugs to provide muscle necessary to "enthusiastically" communicate with the concerned elderly.

But muscle, propaganda and indicting concerned elderly with terms such as "thugs, Nazis, rabble" and "people who should just die quickly," isn't enough. We need your help.

Join us now. Grab a stick and begin beating up your elderly parents and disabled neighbors who might disagree with our Eugenics rationed health care plan. You might find that just waving a baseball bat in front of their wrinkled faces will be enough to gain support for your President, Nancy Pelosi, and the patriots of The Service Employees Union and ACORN.

Long live the glorious revolution and our beloved Obama.

Thank you,

David Axelrod  
Senior Advisor to the President
